NestOS Trial — Environment & Channel Costs

Bill for trial-period **OCR / document scan pack**, **WhatsApp Business** connectivity for candidate outreach, **hosting** of the NestOS test URL, storage, and API usage — so HummingBrains can evaluate end-to-end without free-ride infra.

OCR · WHATSAPP BUSINESS · HOSTING · STORAGE · TRIAL APIS

COST SHEET / BILL

No: NESTOS-COST-2026-001
Date: 5 August 2026
Currency: INR (₹)
Window: ~2–3 weeks trial

BILL TO

HummingBrains Technologies

Attn: Mani / trial evaluation
NestOS test run · Staff Aug · TA · IaaS

Trial environment + channel tooling for NestOS
Phone: 7676733190

Why this bill exists: The NestOS trial is free of a *product licence* charge, but cannot run on zero infra. Resume OCR, WhatsApp Business outreach, public host, file storage and API sessions are paid tools. This sheet is that tooling package for the evaluation period — not NestOS full build / ownership.

TOTAL PAYABLE — TRIAL ENVIRONMENT PACK

Due before multi-user trial links · covers OCR, WhatsApp Business, host, storage, APIs

₹ 12,999

1. Cost breakdown

#	ITEM	WHAT HUMMINGBRAINS USES IT FOR ON NESTOS TRIAL	AMOUNT (₹)
1	**Resume OCR / document intelligence scan pack** Trial page volume for PDF resume extraction (name, skills, exp fields)	**Candidates → upload PDF** — NestOS fills structured fields so the CV is usable, not just a download. Sized for multi-user trial (recruiters + manager try real resumes). OCR scanner	**3,800**
2	**WhatsApp Business setup + message credits (trial)** Business-aligned WhatsApp path for outreach from NestOS candidate drawer	Mani asked for day-to-day recruiter outreach that logs cleanly. Covers WhatsApp Business–class onboarding / conversation pack so **WhatsApp** from a candidate profile is trial-ready (not personal chat-only). WhatsApp Business	**3,200**
3	**NestOS trial hosting (always-on style demo host)** Public trial URL + app + API for the evaluation window	Login, /app, extension capture endpoints, PDF guide downloads — usable from Mani's / team laptops without VPN. Includes buffer for restarts and keeping the environment alive during agreed trial days. Hosting	**2,800**
4	**Resume / file storage + DB (trial data)** Uploaded PDFs, capture queue, candidate rows for the trial window	Storage for resumes from OCR upload, Resdex → NestOS saves, and verification-related files during eval.	**900**
5	**Auth, session & API budget** Logins · Resdex capture posts · activity / invoice API calls	Four roles signing in repeatedly, Naukri helper sends, activity logs, candidate creates for the team.	**1,100**
6	**Chrome Naukri helper host & re-pack** ZIP download endpoint + install guide for Mani's team	Recruits download Load-unpacked extension; capture posts hit NestOS during Resdex trial.	**700**
7	**Ops buffer (OCR overage · host overage · WA top-up)** Small contingency so one heavy test week doesn't freeze the trial	Extra resumes scanned, extra days host online, a few more WhatsApp trial conversations if the team pushes volume.	**499**
		Total trial environment pack	**₹ 12,999**

2. What the testing environment already serves (with this pack)

- **Candidates + OCR** — manual add, PDF upload, structured fields from scan pack
- **WhatsApp from profile** — outreach path aligned to WhatsApp Business pack for trial
- **Find on Naukri** — Chrome helper → capture queue → Save to Candidates
- **Interviews (IaaS)** — board for assign / schedule / capture practice
- **Clients · Leads · Revenue** — sales evaluation seats
- **Activity / Messages / Analytics** — daily-ops discipline check
- **Hosted logins** — Admin / Manager / Recruiter / Sales on one public trial URL

3. How this money meets Mani's needs

NEED	WHAT THIS PAY COVERS	RESULT DURING TRIAL
Resumes must become data, not dead PDFs	OCR / document scan pack	Upload CV → fields fill enough to shortlist & match
Recruiters live on WhatsApp with candidates	WhatsApp Business setup + credits	Open WhatsApp from NestOS candidate; loggable outreach path
Whole team must click the same NestOS link	Trial hosting pack	Remote logins work off the public demo host
Naukri shortlists must land inside the system	API + helper ZIP host	Send from helper → Find on Naukri → Save
Files & profiles must survive the eval week(s)	Storage + DB	Uploaded/imported candidates stay available till trial ends

4. Payment terms

- **₹12,999** payable in full before multi-user trial links and credentials are shared.
- On payment confirmation → Login URL, 4 role logins, extension ZIP, ops guide.
- Pack sized for approx. **2–3 weeks** evaluation with normal recruiter load (dozens of resumes, not bulk OCR production).
- Heavy overage (e.g. hundreds of OCR pages or large WA campaigns) can be quoted as a small top-up.
- **Not a product licence.** Full NestOS commercial proposal is separate after trial feedback.

Notes

- OCR, WhatsApp Business and hosting amounts are **trial packages** sized for HummingBrains evaluation — not multi-year vendor enterprise contracts under HB's GSTIN.
- Public host availability depends on the trial environment staying online during agreed slots.
- GST extra only if a formal tax invoice is required.
